Maternity and Child Welfare Centres - South Kanara District - Opening of

---

Forwarded.

2. In as much as the District Board, South Kanara is willing to forego the usual 1/4th maintenance grant, the request of the President, District Board to open 3 additional maternity and Child Welfare Centres during this year may be considered.

3. In this connection, I invite the attention of Government to the ~~perusal of the~~ appointment of a woman medical officer in this district for the necessary supervision of maternity and child welfare ~~centres~~ work established in this district. The opening of more maternity and child welfare centres with out the provision of adequate supervisory staff is not commendable, as the work will not be organised and guided on correct lines. At present Maternity Assistants are manning 20 maternity and child welfare centres and two health visitors are supervising their work. In the larger interest of the scheme working on an efficient basis, the District Board may be suitably advised to appoint on this maternity and child welfare staff, one woman medical officer (Grade).
